

SANISOAP

Antibacterial & Sanitizing Hand Cleaner Technical Information

Sanisoap is a bactericidal hand and skin cleaner that is free from solvents and harsh chemicals and contains chlorhexidine digluconate for added protection and to help prevent skin infections. Sanisoap gives a rich creamy lather that is mild enough for general use but with extra emulsifying power for difficult soils such as grease and grime.

Sanisoap is highly suited for use in the food handling and processing industry.

Primary features attributable to Sanisoap are:

- Mild, rich cleansing lather;
- Antibacterial and sanitizing action;
- Ideal for catering, food handling industries;
- Used for prevention of cross infections by hand contact;
- Suitable for wall mounted dispensers;
- Cost effective utilisation.

Applications

Sanisoap is suitable for use in all industries where a sanitizing soap is required, such as: Washroom areas of hotels, factories, workshops, offices, public rooms, public buildings, nursing homes, retirement homes, airports, department stores and shops

It is especially useful for use within the catering, food handling and processing industries where a sanitising hand cleaner is essential.

Compatibility

Certificate No. GB06/69741

Safer
Solutions
For Industry

Sanisoap is safe for use in contact with stainless steel, plastics, laminate, ceramic, glass and paintwork surfaces.

Health and Safety

Sanisoap is non hazardous to use but users should avoid contact with eyes.
The product is fully biodegradable.
