

SPRAY & WIPE™

Hard Surface Cleaner Technical Information

Spray & Wipe is a ready to use bactericidal hard surface cleaner for use in food preparation and food handling industries.

It is a unique blend of detergents, surfactants, saponifiers and bactericides designed to clean all surfaces and protect against cross-infection.

Spray & Wipe comes in a handy trigger pack and is non-tainting and economical in use.

Primary features attributable to Spray & Wipe are:

- Bactericidal;
- Effective cleaner for wide variety of soils;
- Safe for food preparation and handling;
- Biodegradable;
- Cost effective utilisation.

Applications

Spray & Wipe safely and easily removes grease, grime, tobacco stains, dried blood and food residues from hard surfaces. It will also be effective on moulds and fungi, and has been used in the transport industry to remove traffic films, oils, grime, rubber marks, etc. from cabs, paintwork, etc.

It is an ideal product for use on food preparation surfaces, floors, walls, paintwork, light fittings, wood, glass, metal, plastic, tiles and laminates.

Compatibility

Spray & Wipe is compatible with all materials normally encountered in food preparation and transport vehicles.

It has been formulated for use on stainless steel, plastics, laminate, ceramic, glass and paintwork surfaces.

Health and Safety

Spray & Wipe is not classed as hazardous.

The product is not flammable and is fully biodegradable.

Users should however avoid contact with eyes and prolonged contact with skin.

See Material Safety Data Sheet for details.

Typical Properties

Appearance	Pale pink liquid
Odour	Floral odour
pH,	10.0 to 11.0 units
Density, g/cm ³ @ 20 °C	1.00
Solubility in water	Completely miscible
Flash Point (Abel closed cup)	None

Storage life when stored in original, unopened containers, away from direct sunlight and heat, at between 5 °C and 30 °C, is not less than 36 months.

Directions for Use

Spray & Wipe should be used as supplied.

Application:

Apply the diluted cleaner using the spray trigger pack onto the required surface and allow a few minutes for the cleaner to lift any dirt, etc. then wipe off using clean damp cloth. Rinse surface further with damp cloths to remove final traces of dirt and cleaning fluid residues, etc.

Any stubborn stains should be agitated using a nylon fibre pad to obtain best results, and then thoroughly wiped off with moistened cloth.

NOTE: If in doubt about the suitability of the substrate with the cleaner, test a small inconspicuous area before application.
